

# Paediatric Airway & Resuscitation Workshops

These workshops are designed to provide practical knowledge and “hands on” experience, aiming to improve competency and confidence with assessment and management of paediatric airway emergencies and resuscitation

There will be 3 separate workshops that can be booked independently or together

Please note that spaces will be limited (see below).

## Session 1 (4 hours) - Cost \$200

- Brief Lectures on Paediatric Airway Physiology and Anaesthetic Perspective of Airway Emergencies
- Multiple skill stations run in small groups, including:
  - flexible & rigid airway endoscopy
  - difficult intubation
  - paediatric tracheostomy related emergencies and general management

Run by Paed ORL , Anaesthesia, SLT & Starship Simulation Teams

## Session 2 (1 hour) - Cost \$50

- Interpretation of paediatric overnight oximetry
- Run by Starship Respiratory Consultant

## Session 3 (2 hours) Cost \$150

- Advanced paediatric resuscitation course: Fluid resuscitation, massive transfusion protocols, IV & IO access, up to date CPR protocols and cardiac rhythm recognition
- Lectures , practical stations and scenarios
- Run by Starship Simulation and Paediatric ICU & Emergency Department teams

**Cost for full day (all 3 Workshops) \$300**

## WHO SHOULD ATTEND

- Session 1 is intended for ORL Consultants covering local paediatric on call emergencies
- Sessions 2 & 3 are suitable for Consultants, Registrars (trainees & non-trainees) & ORL Nurses

*Please book through NZSOHNS 2020 conference website with general registration  
Please note that Sessions 1 & 3 are “hands on” courses —so spaces are limited!*

**Date:** Tuesday 13th October 2020  
**Venue:** Auckland Hospital Clinical Skills Centre
